If that is what is requested, yes we can do that. There is a local library within a couple of miles from the site.

**Subject:** Local Document Repository

Hi –

One more thing, forgot to bring up this topic.

Within the next week or two, can you establish a local repository, such as a public library, to place hard-copy documents for public access?

I believe that one was set up for the Statement of Basis public comment period.

We would then ID the local repository as a place to view site documents in the EPA fact sheets, along with the EPA Region 5 Records Center info.

Thanks.

Carolyn
